

On the last day Canon Tom presented a new motor bike to Edward Matsi, the Regional Manager of Anglican schools for the diocese. We then toured the hills and more remote villages of the area stopping in one village to buy 'Ball Floats' from a stall – like small doughnuts but without sugar or jam – delicious. The next morning the Bishop drove us back to Accra – and thus ended an incredible experience.

We found Ghana a very safe and welcoming country. Our memories are filled with a kaleidoscope of sights, sounds, smells and wonderful friendships.
