

Quotes from Group members

I attend the Wellbeing and Cancer Support Group because:

“It gives me the opportunity to discuss my cancer-related problems with people who understand.”

“It is a very informative group of people that makes you realize you are not on your own.”

“It’s very reassuring to hear different people’s story and to know that there is someone there who can listen to you.”

“Gives great support amongst friends when most needed through scary times.”

“In the sharing of information and receiving support from others in the same situation, I have found the group so warm and understanding.”

“I would personally recommend it to anyone who feels the need to talk about their condition”

Thank you for your interest in joining or helping at our Support group.

We are grateful for the encouragement and support of the doctors at Hanslope Surgery, the medical director at Willen Hospice and the Macmillan Involvement Coordinator for our area.

Introduce ourselves
